The woman behind Extension Professional, who is known for her natural transformations at Four in Mayfair, has developed a line of clip-in extensions, launching exclusively on our favourite online shopping destination, Very Exclusive, on August 28. Beautifully presented in a luxuriously sleek case, the extensions use 150g of the highest quality real hair, making them stand out from their competitors. Thanks to the incredible clip and go design, they are the easiest to use extensions we've ever come across - and they're available in a wide range of colours to suit most hair.
